DETAILED ACTION

1. Amendment filed on 10/19/04 has been received.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-9 and 11-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 99/54157.

WO 99/54157 discloses a crimped collar. See figure 7 and pages 10 and 11 of the specification.

WO 99/54157 does not disclose crimping to form crimped areas at opposed locations. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have the collar crimped at 4 locations as such is merely a design choice.

Regarding claim 2, 4, 5, 9-11, and 20-22, WO 99/54157 is relied upon as above. WO 99/54157 does not disclose various design details claimed. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have the various design details claimed as such is merely a design choice. These details have a insignificant impact on the functioning of the device.

Response to Arguments

4. Applicant's arguments filed 10/19/04 have been fully considered but they are not persuasive. Applicants appear to have argued embodiments of WO 99/54157 that were not used as a basis for rejection. The examiner used Figure 7 which clearly contains a pinched area and not the engagement portions that the applicant has argued.

Therefore, the arguments are irrelevant to the rejection as made.

5. Applicant's arguments with respect to claims 1-9 have been considered but are moot in view of the new ground(s) of rejection.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

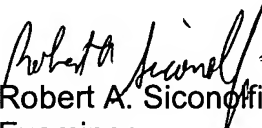

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
